

# Contents

<b>Session A1. Historic Preservation</b>	<b>10</b>
Spokane, the Hidden Masonry Gem . . . . .	11
<i>Sara Ganzerli, Alyssa Willmarth</i>	
A Comparative Study of the Composition and Physico-Mechanical Properties of Bricks from Different Periods . . . . .	21
<i>Armando Zagaroli, Francesco Santoro De Vico, Encarnación Ruiz Agudo, Jan Kubica, Carlos Rodriguez-Navarro, Marcin Górski</i>	
Case Study: Evaluation of Historic Masonry Buildings Using Nondestructive, Destructive, and Analytical Tools . . . . .	32
<i>Peter M. Babaian, Connor J. Bruns</i>	
Back to the Future: Challenges in Reproduction of Historic Cast Concrete Units at Kalil House a Frank Lloyd Wright Usonian Automatic . . . . .	47
<i>Tara L. Ikenouye</i>	
Mortar Meet Granite . . . . .	57
<i>Emma Cardini, Susannah Davis</i>	
Masonry Scapegoat - Structural Investigation Reveals the True Culprit . . . . .	67
<i>Jack Healy, Jamie Davis, Meera Ramesh</i>	
<b>Session B1. Codes &amp; Standards</b>	<b>77</b>
Size Effect on Concrete Masonry Shear Strength Under Various Grouting and Precompression Conditions . . . . .	78
<i>Jianyixian Zhu, Ahmed Ahmed, George Iskander, Nigel Shrive</i>	
Influence of Web Geometry on Concrete Masonry Walls Subject to Out-of-Plane Loading . . . . .	89
<i>Micah Heide, Lisa R. Feldman</i>	
A New 2-Step Testing Method for Measuring Moisture-Induced Shrinkage of Concrete Blocks, Mortar and Masonry Assemblies . . . . .	99
<i>Alexander Menun, Tonushri Das, Lindsay Saad, Adrien Sparling, Daniele Malomo</i>	
TMS 402 Appendix D: Glass Fiber Reinforced Polymer (GFRP) Reinforced Masonry . . . . .	109
<i>Richard Bennett, Heather Sustersic</i>	

TMS 402/602-22: Changes from the 2016 Edition . . . . . 120  
*John Chrysler, Richard M. Bennett, Andy Dalrymple, David Pierson, Phillip J. Samblanet*

An Approach for Numerically Improving the Parameters of the Moment Magnifier Method . . . . . 131  
*Baher Haleem, Ahmed Ahmed, Hasini Rathnayake, Nigel Shrive*

**Session C1. Numerical Modeling and Analysis** **140**

Accurate Simulation of Mechanical Behavior of Unreinforced Earth Block Masonry via Finite Element Detailed Micro-Modeling . . . . . 141  
*Nitin Kumar, Michele Barbato, Erika Rengifo-Lopez, Fabio Matta*

Analytic Calibration of Confined Masonry Walls Tested Under Cyclic Lateral Loads with Cracked Sections . . . . . 154  
*Daniel Quiun, James Escamilo, Eric Espinosa-Cazarín*

An Analysis Model for Partially Grouted Shear Walls Using Macro-Modelling: Importance of Reporting Joint Shear Strength . . . . . 164  
*Amr Ba Rahim, Clayton Pettit, Carlos Cruz-Noguez, Jeffrey Hung*

Numerical Simulation of Unreinforced Hit-and-Miss Masonry Walls Subjected to Out-of-Plane Loading: Vertical Bending . . . . . 176  
*Md Akhtar Hossain, Mark J Masia, Mark G Stewart*

A Possible Replacement to Masonry Prism Test: Calibrating a Numerical Model with Experimental Compressive Strength Data . . . . . 186  
*James Bristow, Mehrdad Karami, Mahmoud Motahari, Moses Karakouzian*

Predicting the Ultimate Force and Collapse Mechanism of Masonry Arches via Peridynamic Modeling 197  
*Semsi Rakici, Bora Pulatsu, Ece Erdogmus*

**Session A2. Inspection, Testing, & Quality Assurance** **209**

Advances in the Determination of the Compressive Strength of Existing Masonry . . . . . 210  
*Birger Gigla*

Tangential Interface Stiffness Estimation of Dry-Joint Masonry Structures Through an Extended Experimental Campaign . . . . . 221  
*Carla Colombo, Georgios Vlachakis, Christiam C. Angel, Anastasios I. Giouvanidis, Nathanaël Savalle, Nuno Mendes, Paulo B. Lourenço*

Seismic Testing of Adjacent Interacting Masonry Structures . . . . . 231  
*Igor Tomić, Andrea Penna, Matthew DeJong, Christoph Butenweg, A.A. Correia, P.X. Candeias, Ilaria Senaldi, Gabriele Guerrini, Daniele Malomo, Katrin Beyer*

Experimentally Testing Eccentrically Loaded Full and Half Scale Concrete Masonry . . . . . 238  
*George Iskander, Ahmed Ahmed, Nigel Shrive*

**Session B2. Codes & Standards** **248**

Structural Reliability Assessment of Safety Factors for Unreinforced Masonry Veneer Walls Subjected to Out-of-plane Loading . . . . .	249
<i>Imrose B. Muhit, Mark G. Stewart, Mark J. Masia</i>	
Experimental Study for the Bond Development of High-Strength Steel Reinforcement in Structural Masonry . . . . .	259
<i>Omar Khalid, Waleed Khan, Dimitrios Kalliontzis, John Hochwalt</i>	
Developing an Existing Masonry Standard in the U.S. . . . .	270
<i>Heather Sustersic, Craig Bennett, Michael Schuller, Can Simsir, Tom Elliott, Amy Lamb Woods, Meera Ramesh, Lawrence Kahn</i>	
Analysis of Test Methods for Determining Flexural Tensile Strength According to NBR 16868-3 (2020) and AS 3700 (2017) . . . . .	282
<i>Gustavo Sipp, Murilo de Carvalho Maturana, Lucia Bressiani, Guilherme Aris Parsekian</i>	
A Test for the Freeze/Thaw Resistance of Mortar . . . . .	291
<i>Geoffrey J. Edgell</i>	
<b>Session C2. Seismic Design and Analysis</b>	<b>299</b>
Seismic Out-of-Plane Retrofit of URM Walls Using Timber Strong-Backs . . . . .	300
<i>Ivan Giongo, Dmytro Dizhur, Jason Ingham, Robert Hudson, Marta Giaretton</i>	
Experimental Investigation on In-Plane Cyclic Shear Behaviour of Reinforced Masonry Walls with Different Reinforcement Detailing . . . . .	312
<i>Seyed Meghdad Ghasemini, Tatheer Zahra, Julian Thamboo, Mohammad Asad, David P. Thambiratnam, Jack Gill</i>	
Experimental Validation of a Design Methodology for Tie-Columns of Confined Masonry Buildings .	322
<i>Bonisha Borah, Hemant B. Kaushik, Vaibhav Singhal</i>	
Shake Table Experiments on Small-Scaled Masonry Arch with Finite Tensile Strength . . . . .	331
<i>Rajat Avasthi, Durgesh C. Rai</i>	
High Axially Loaded Intermediate Reinforced Fully Grouted Masonry Shear Walls Subjected to Out-of-Plane Cyclic Lateral Load . . . . .	340
<i>Tousif Mahmood, Ahmed Ghani, Mohamed ElGawady</i>	
<b>Session A3. Historic Preservation</b>	<b>351</b>
Preserving a Landmark: Saving a Historic Masonry Landmark with Cost Saving Restoration Construction Practices . . . . .	352
<i>Nathan J. Harres, Ariel Kousgaard</i>	
Parametric Study on the Effects of Repointing Historic Masonry Structures . . . . .	361
<i>Daniele Paulino, Michael Schuller, Carlo Citto</i>	
Evolution of Architectural Terra Cotta Detailing . . . . .	371
<i>Edward A. Gerns, Rachel L. Will</i>	

The Challenge of a Designer and His Confidence in Masonry: The Case of a 19th Century Italian High Dome . . . . . 382  
*Giuliana Cardani, Paolo Piantanida, Antonio Vottari*

**Session B3. Construction Practices & Technology 390**

Adhered Masonry Veneers: Converging the Crafts of Brick and Tile . . . . . 391  
*Scott Conwell, Sunup Mathew*

Triggering Career Interest in High School Students: A Summer Camp Centered on Masonry Wall Construction and Advanced Technology Applications . . . . . 405  
*Barbara Oliveira Spitzer, Ece Erdogan, Jong Han Yoon, Javier Irizarry, Steven Kangisser, Pardis Pishdad-Bozorgi, Ben Kreimer*

Modularization of Masonry Walls: Numerical Investigation of a Novel Concrete Masonry Panel System 417  
*Mahmoud Elsayed, Alan Alonso-Rivers, Rafael Gonzalez-Mariscal, Samer Adeeb, Douglas Tomlinson, Carlos Cruz-Noguez*

Strengthening Of Unreinforced Brick Masonry Wallets Using Engineered Cementitious Composite (ECC) Overlays . . . . . 427  
*Subodh Kumar, Durgesh C Rai*

Masonry Prefabrication and Offsite Construction in North America . . . . . 437  
*Brian Trimble, Pat Conway*

**Session C3. Seismic Design and Analysis 447**

Numerical Study on Influence of Ferrocement Overlay on Seismic Strengthening of Unreinforced Masonry Buildings . . . . . 448  
*Anubhab Mukherjee, Hemant B Kaushik*

Sensitivity of Damage Accumulation of Masonry Walls due to Earthquake Vibrations via Finite-Element Models . . . . . 457  
*Paul A. Korswagen, Michele Longo, Jan G. Rots, Karel C. Terwel*

Modeling Autoclaved Aerated Concrete Shear Walls Subjected to Reversed Cyclic Loads using Finite Element Analysis . . . . . 467  
*Cesar Freyre-Pinto, Ray Fertig, Jennifer Eisenhauer Tanner*

Sensitivity Analysis of Parameters on the In-Plane Behavior of Unreinforced Masonry Wall Strengthened with Steel Wire Reinforced Cementitious Matrix (SWRCM) . . . . . 477  
*Dattatreya Tripathy, Vaibhav Singhal*

Numerical Investigation of The Bond Behavior Between High Strength Steel Bars And Concrete Masonry . . . . . 486  
*Muhammad Waleed Khan, Omar Khalid, Dimitrios Kalliontzis*

**Session D3. Sustainability & Green Construction 496**

PPE and Worker Detection to Improve Safety on Masonry Construction sites using Computer Vision and AI . . . . . 497  
*Kristyna Kvapilova, Palwasha Afsar, Pablo Martinez, Rafiq Ahmad*

Adobe Houses Reinforced with Welded Wire Mesh in Peru: 20 Years of Structural Safety . . . . . 508  
*Alvaro Rubiños, Daniel Quiun, Gabriela Esparza*

Experimental Study and Fabrication of High Content Coal-Derived Char Bricks . . . . . 517  
*Hua Yu, Kam Ng, Chooikim Lau, Trina Pfeiffer, Richard Horner*

**Session A4. Inspection, Testing, & Quality Assurance** . . . . . **527**

Experimental Analysis of Unreinforced Masonry Buildings Through the Quasi-Static Test: A Half-Scale Two-Story Modern Masonry Building . . . . . 528  
*Abide Aşikoğlu, Alberto Barontini, Nathanael Savalle, Graça Vasconcelos, Paulo B. Lourenço*

A Database for Post-Installed Masonry Anchors . . . . . 541  
*Gary Ogden, Michael Schuller*

An Innovative Approach for Estimation of Compressive Strength of Masonry Prisms Using Acoustic Response: An Experimental Study . . . . . 551  
*Mehrdad Karami, James Bristow, Neil Cox, Moses Karakouzian*

Statistical Analysis of Mortar Joint Thickness in Masonry Walls . . . . . 561  
*Sahar Farjad, Nigel G. Shrive*

**Session B4. Design Practices** . . . . . **571**

Axial Compression Behavior of Reinforced Masonry Walls and Related Revisions in the Australian Masonry Design Standards . . . . . 572  
*Tatheer Zahra, Julian Thamboo, Mohammad Asad, Mengli Song, Jack Gill*

Effect of ASCE/SEI 7 Tornado Provisions on Anchored Veneer Design . . . . . 583  
*Nathan Matthews, Richard Bennett, Jim Bryja*

Anchorage of Straight, Hooked, and Headed Reinforcement in Concrete Masonry . . . . . 592  
*Christopher J. Motter, Majid Jarrah*

**Session C4. Numerical Modeling and Analysis** . . . . . **602**

Numerical Studies on Dry Joint Stone Masonry: A Pseudo-Static Approach for the Study of The Out-of-Plane Performance of Different Wall Configurations . . . . . 603  
*Paola Ita, Sandra Santa Cruz, Dominique Daudon, Nicola Tarque*

Fast and Reliable in-Plane Seismic Analysis of Loadbearing Masonry Structures Using DE Macro-Crack Networks . . . . . 613  
*Zinan Zhang, Bora Pulatsu, Daniele Malomo*

Videogame Engines for Simulating the Free-Rocking Response of Unreinforced Masonry Macro-Blocks: An Exploratory Study . . . . .	623
<i>Nicole Han, Lee Brickman, Sheldon Andrews, Daniele Malomo</i>	
Analytical Backbone Model for Partially Confined Masonry Panels . . . . .	633
<i>Yi-Hsuan Tu, Bor-Min Chang</i>	
<b>Session A5. Historic Preservation</b>	<b>644</b>
Best Practices for Investigating Existing Masonry Facades . . . . .	645
<i>Jordan C. Dick</i>	
Review of Historic Standards for Masonry Design and Construction . . . . .	655
<i>Patrick B. Dillon, Abigail Cowser, Natalie Chavez</i>	
Proposed Flowchart for a Future Building Code for Existing Masonry Structures . . . . .	664
<i>Patrick B. Dillon</i>	
Investigation of the Impacts of Rising Damp in a Historic Crypt Structure . . . . .	677
<i>Joshua Jaskowiak, Erin Murphy</i>	
Masonry Distress: When to Relax; When to Run and When You Just Don't Know . . . . .	685
<i>Edward Gerns, Leah Ruther</i>	
Case Study on Structural Health Monitoring of a Mid-Century Public School Building to Identify Structural and Environmental Causes of Cracking of Loadbearing and Infill CMU . . . . .	696
<i>Kevin Q. Walsh, Emily Diaz-Gunning, Troy A. Madlem, Jacob Yoder</i>	
<b>Session B5. Environmental Separation: Thermal, Moisture, and Fire Performance</b>	<b>707</b>
Assessment of Thermal Mass on the Energy Consumption of Typical Masonry Buildings . . . . .	708
<i>Li Liu, W. Mark McGinley</i>	
Evaluation of the Thermal Performance of Active Thermal Mass in Exterior Masonry Walls . . . . .	719
<i>Li Liu, W. Mark McGinley</i>	
Impact of Moisture on the Dynamic Thermal Performance of a Residential Brick Veneer Wall Assembly	729
<i>Nathaniel C. Huygen, John P. Sanders</i>	
Evolution of Hygrothermal Properties of Fired Clay Masonry During Firing . . . . .	738
<i>Nathaniel C. Huygen, John P. Sanders</i>	
The Influence of High Temperature Exposure on Masonry Mortar Compressive Strength . . . . .	748
<i>Namratha Kondam, David Woodham</i>	
<b>Session C5. Materials and Manufacturing</b>	<b>753</b>
Improving the Sustainability of Cement-Lime Masonry Mortar with Portland-Limestone Cement . . . . .	754
<i>Jamie Farny, Bill Kjorlien</i>	

Non-Proprietary Ultra-High-Performance Concrete (UHPC) for Masonry Construction . . . . . 763  
*Antony Kodsy, Soumitra Das, George Morcoux*

Brick Production Using Lunar Materials . . . . . 772  
*Jake Hendrix, Frederick Rutz*

Recent Development and Manufacturing of Coal-Derived Building Materials . . . . . 781  
*Kam Ng, Chooikim Lau, Md Tarik Hossain, Hua Yu, Trina Pfeiffer, Richard Horner*

Toward Low Carbon Footprint and Lightweight Masonry Alkali-Activated Material . . . . . 791  
*Zina Ebrahim, Mohammad Mastali, Marc Maguire*

**Session A6. Design Practices** . . . . . **800**

An Overview of the Design and Detailing of Masonry Beams Subjected to Torsion . . . . . 801  
*Ece Erdogmus, David Biggs*

Mechanics of Spatial Funicular Masonry Structures . . . . . 812  
*Mohammad Bolhassani, Valeska Abarca, Angel Sanchez*

Structural Design of Perforated Masonry Screen Walls . . . . . 821  
*Brian Trimble, Scott Walkowicz*

Slender Reinforced Masonry Walls: Analysis Of Stiffness Response . . . . . 832  
*Adrien Sparling, Dan Palermo, Bennett Banting*

**Session B6. Inspection, Testing, & Quality Assurance** . . . . . **844**

Experimental Investigation of Water Penetration in Clay Brick Masonry with Artificial Cracks . . . . . 845  
*Syedmohammad Kahangi Shahreza, Jonas Niklewski, Miklós Molnár*

Towards Real-Time Digital Twins for Post-Earthquake Damage Assessment Of Masonry Buildings . . . 857  
*Bryan German Pantoja-Rosero, Radhakrishna Achanta, Katrin Beyer*

Longitudinal Shear Resistance of Steel Plate Connectors in Masonry Cavity Walls . . . . . 865  
*Ambar Baron Bello, Benedict Egbon, Carlos Cruz-Noguez, Douglas Tomlinson*

**Session C6. Numerical Modeling and Analysis** . . . . . **876**

Parametric Macro-Modelling of Old Canadian Brick Masonry Walls Under In-Plane Loading . . . . . 877  
*Lucy Davis, Zinan Zhang, Daniele Malomo*

Influence of Boundary Conditions on the Performance of Block Arch Masonry Retaining Walls: Numerical Study . . . . . 888  
*Hasini Rathnayake, Ahmed Ahmed, George Iskander, Baher Haleem, Nigel Shrive*

Effects of Openings in the Seismic Rigidity and Strength of Confined Masonry Walls Using Finite Element Models . . . . . 899  
*Daniel Quiun, Oscar Toro*

Void Distribution Parameters and CT Scanning of Typical North American Concrete Masonry Units . . . 909  
*Ahmed Ahmed, George Iskander, Baher Haleem, Nigel Shrive*

**Session A7. Inspection, Testing, & Quality Assurance** **920**

Development of a Sag Resistance Test for Plasters and Renders . . . . . 921  
*Monika Pultorak, Paulo B. Lourenço, Miguel Azenha*

Using an Exterior Masonry Pre-Installation Meeting Through Construction Observation to Lower Rework Costs . . . . . 931  
*Corey S Zussman*

Compressive Strength of Field-Prepared Mortar Joints using Double Punch Tests of Cast Mortar Discs 941  
*Johnn Judd, Braden Day, Fernando Fonseca*

A Laboratory Investigation into the Variability of Unreinforced Masonry Shear Wall Capacities . . . . 950  
*Lewis J Gooch, Mark J Masia, Mark G Stewart, Md Akhtar A Hossain*

**Session B7. Design Practices** **962**

Flexural Bond Strength of Masonry Assemblies with Lightweight Grout . . . . . 963  
*Laura Redmond, Ben Hiner, Stephen Wright, Cooper Banks, Michael Stoner*

Out-Of-Plane Behavior of a Slender Masonry Wall with Different Base Stiffnesses . . . . . 974  
*Alan Alonso, Rafael Gonzalez, Mahmoud Elsayed, Douglas Tomlinson, Carlos Cruz-Noguez*

Designing Anchored Masonry Veneer with TMS 402-22 . . . . . 984  
*Richard M. Bennett, Christine A. Subasic*

Constructability and Flexural Response of Reinforced Masonry Prisms Using Different Reinforcement Configurations . . . . . 994  
*Rafael Gonzalez, Alan Alonso, Mahmoud Elsayed, Carlos Cruz-Noguez, Douglas Tomlinson*

**Session C7. Seismic Design and Analysis** **1004**

Backbone Models of Retrofitted Masonry Walls for Performance-Based Seismic Design . . . . . 1005  
*Diana C. Ramírez, Sergio M. Alcocer*

Design of Masonry Coupling Beams . . . . . 1020  
*John M. Hochwalt, Richard M. Bennett*

Evaluating In-Plane Seismic Behavior of Intermediate Reinforced Fully Grouted Masonry Shear Walls Subjected to High Axial Loads . . . . . 1031  
*Tousif Mahmood, Ahmed Gheni, Mohamed ElGawady*

Shake Table Tests of Traditional Timber Frame Masonry Construction System . . . . . 1043  
*Aanisa Gani, Durgesh Rai, Jan Mohammad Bandy*

Impact of ASCE/SEI 7-22 Seismic Changes on Masonry Design . . . . . 1054

*Richard Bennett, Anindya Dutta, John Hochwalt*
